# Steel 201: Introduction to Advanced High Strength & Other New Steels Workshop

Steel Market Update is working with AK Steel as we present our first Steel 201: Introduction to Advanced High Strength & Other New Steels workshop. This workshop is meant to be a continuing education course focused on how steel is made with a special focus on advanced high-strength steels for automotive and other “lightweighting” applications. We will also work through how a manufacturing company can create a part and then go to a mill like AK Steel to see what engineering needs to be done to match the part with the right steel.

This workshop will be held on **September 11-12, 2018 in Middletown, Ohio**

Additional details can be found at [www.SteelMarketUpdate.com/Events/Steel-201](http://www.SteelMarketUpdate.com/Events/Steel-201)
